VIJEY R S

SOFTWARE DEVELOPER | PYTHON | FULL-STACK WEB DEVELOPMENT

Chennai, Tamil Nadu | 9176599049 | vijeyrs01@gmail.com | linkedin.com/in/vijeyrs/

PROFESSIONAL SUMMARY

Computer Science and Engineering student graduating in 2027 with practical exposure to front-end and back-end web development. Built and deployed a portfolio website and a Node.js login system using HTML, CSS, JavaScript, HTTP GET/POST methods, and back-end authentication logic. Completed a 45-hour project-based Full Stack Web Development course.

TECHNICAL SKILLS

Programming: Python

Frontend: HTML, CSS, JavaScript

Backend: Node.js, Authentication, HTTP Request Handling

Database: MySQL

Core Computer Science: Problem Solving

Tools: Microsoft Excel

EXPERIENCE

Training Participant (Offline) – Full Stack Development | Photon Interactive Private Limited

December 12–31, 2024

- Gained hands-on exposure to full-stack web development, covering frontend and backend development concepts.
- Learned web application fundamentals, including user interface development, server-side logic, and client-server communication.
- Explored application development workflows, including testing and debugging.

Web Development Intern | Skillforge

July 2024–September 2024

- Completed a two-month internship focused on front-end and back-end web application development.
- Built and deployed a personal portfolio website and a Node.js login system.
- Implemented login request handling with HTTP GET and POST methods and connected the client interface to back-end authentication logic.
- Participated in project planning, coding, testing, deployment, and troubleshooting.

Full Stack Web Development Trainee | ExcelR EdTech Pvt. Ltd.

February–March 2026 | 45-hour project-based course

- Completed 45 hours of project-based training in full-stack web development.
- Gained exposure to frontend and backend web development concepts through structured course work.

PROJECTS

Node.js Login System

- Developed a front-end login interface and Node.js back-end authentication logic; used HTTP GET and POST methods for login request handling and client-server communication.

Personal Portfolio Website

- Designed and deployed a portfolio website showcasing projects, achievements, about information, and contact details.

EDUCATION

B.E. Computer Science and Engineering | Sathyabama Institute of Science and Technology, Chennai | 2023–2027

CERTIFICATIONS AND TRAINING

- Full Stack Development Training – Photon Interactive Private Limited | Offline training | December 12–31, 2024
- Web Development Internship – Skillforge | July–September 2024
- Full Stack Web Development – ExcelR EdTech Pvt. Ltd. | 45-hour project-based course | February–March 2026
- Digital 101 Gold Certification – NASSCOM
- Getting Started with MySQL Command Line – IBM Developer Skills Network / Cognitive Class
- Introduction to Cognos Analytics (DA0104EN) – IBM Developer Skills Network / Cognitive Class
- Big Data 101 (BD0101EN) – IBM Developer Skills Network / Cognitive Class
- Statistics 101 (ST0101EN) – IBM Developer Skills Network / Cognitive Class

ACHIEVEMENTS

- Secured 3rd place in the Technado technical event at Sathyabama Institute of Science and Technology.
- Solved 334 programming problems on CodeChef.
